PUBLIC NOTICE

Subject: Advisory to Government Medical Colleges/Institutions regarding cooperation for conduct of NBEMS Practical Examinations.

The National Board of Examinations in Medical Sciences (NBEMS) conducts standardized and nationally recognized postgraduate and postdoctoral examinations across the country. In view of the increasing number of candidates appearing in NBEMS final practical examinations, the requirement for adequate examination centres, clinical material, infrastructure, and experienced examiners has correspondingly increased.

2. NBEMS has informed that timely and smooth conduct of practical examinations is dependent upon the active cooperation and support of medical colleges and institutions. However, difficulties are being faced on account of non-availability of examination centres and non-relieving of eligible faculty members for examiner duties in certain instances. In this regard, all Government Medical Colleges/Institutions under the ambit of the National Medical Commission are **advised** to extend necessary cooperation and support to NBEMS for conduct of its practical examinations, **including by:**

- i. Facilitating conduct of NBEMS practical examinations in their institutions, subject to administrative feasibility.
- ii. Ensuring availability of requisite infrastructure, wards, laboratories, and suitable clinical material/patients as required for examinations.
- iii. Relieving eligible and nominated faculty members for examiner duties in a timely manner.
- iv. Coordinating with NBEMS to ensure smooth and efficient conduct of examinations.

3. It is emphasized that NBEMS suitably compensates the exam centres for the expenses incurred by them in holding the examination. The examiners

are also given approved remunerations for the services offered by them for various NBEMS academic activities.

4. The cooperation of institutions and faculty members will significantly contribute towards maintaining standards of postgraduate medical education while ensuring timely conduct of examinations in the larger public and academic interest. All institutions are requested to take necessary action accordingly.
