THIS WRIT PETITION (CIVIL) HAVING COME UP FOR ADMISSION
ON 04.04.2022, ALONG WITH WP(C).10737/2022 AND CONNECTED
CASES, THE COURT ON THE SAME DAY DELIVERED THE FOLLOWING:

JUDGMENT

These writ petitions have been filed by students pursuing their final year MBBS Course for the academic year 2017-2022 in various Medical Colleges in the State of Kerala. Their common grievance in these writ petitions is the decision taken by the Kerala University of Health and Sciences (KUHS) fixing the date for the III Professional MBBS Degree Part II Regular/Supplementary Examinations from 31.3.2022 onwards.

2. As common issues are raised, all these writ petitions are taken up and disposed of by a common judgment. Reference to parties and exhibits shall be as described in W.P.(C) No.10737/2022 unless otherwise stated.

3. The petitioners contend that the MBBS Course is split up into 9 semesters consisting of three phases. Every student is expected to undergo a period of certified study extending over 4½ academic years divided into 9 semesters of six months each from the date of commencement of her/his study for the subjects comprising the medical curriculum to the date of completion of examination followed by one year compulsory rotating internship. The final year falls in the third phase and it consists of

semesters 8 and 9. As per Ext.P2 Regulations issued by the KUHS, the Colleges have to conduct a minimum of 44 weeks of classes for the 8th and 9th semesters, out of which three hours a day is set apart for clinical posting, two hours for theory classes and the balance of two hours is set apart for practicals and seminars. In other words, the final year students have to undergo 738 hours of clinical postings, 492 hours of theory classes in clinical subjects and 492 hours for practical and seminars. Such a strict regimen is put in place to ensure that a student who is graduated becomes fully equipped to handle a human being who approaches the physician for his treatment. The Regulations mandate that only a candidate who has undergone the prescribed duration of study is eligible to qualify for a Degree.

4. The petitioners assert that COVID-19 pandemic wrecked and disrupted the academic calendar. All the Colleges and the Universities had to remain closed to prevent the spread of the virus. None of the Colleges were able to impart the required mandatory training to the students, whether it be theory classes or clinical postings. Though the Regulations stipulate that 44 complete weeks of classes are to be held for the period from August 2021 to 16.2.2022, the Colleges were able to impart much less

training. The overall shortage of training has been estimated by the petitioners as 16 weeks. The petitioners assert by relying on Exhibit P4 data that the deficiency of classes is more than 40% in some of the colleges. The petitioners contend that the impact of the deficiency is that none of the petitioners would be eligible to appear for the NEET PG Examination and even if they are graduate, they would only be half baked professionals.

5. The petitioners state that taking note of the unprecedented situation, the Heads of Institutions of various Medical Colleges in the State had requested the Director of Medical Education (DME) to postpone the examinations. Several students had also approached the KUHS and the DME seeking postponement on the ground of lack of minimum training and when no action was taken, a group of students had approached this Court and had filed W.P.(C) No. 6038/2022. This Court, by judgment dated 14.3.2022, rejected the request for postponement of the examinations but issued certain directions based on the submissions made before this Court by the learned counsel appearing on both sides. It is contended that some of the Universities outside Kerala have scheduled the regular examinations of the Final Year MBBS Part I (2018-2019) and Part II (2017-2018) batches from the 3rd week of May 2022 and there is no reason why the KUHS cannot

follow suit. It is on these grounds that these writ petitions have been filed seeking more or less the same relief. The reliefs prayed for are:

- i) To issue a writ of certiorari or any other appropriate writ, order or direction to quash Ext.P1 notification issued by the 1st respondent University;
- ii) To issue a writ of mandamus or any other appropriate writ, order or direction to the 1st respondent University to reschedule the dates of III Professional MBBS Degree Part II Examination till the mandate under Ext.P2 regulations are met.

6. In the statement filed by the University through their Standing Counsel on 28.3.2022, they admit that the medical courses were also affected due to the pandemic. Taking note of the said situation, the National Medical Commission issued Ext.R1A Schedule of Academic Program by which, the classes for the final year (III Professional Part II) had to be held from May 2021 to February, 2022 and the examinations were to be held in March 2022. The Medical Colleges in the State commenced online theory classes by the month of April 2021 and after commencement of the physical classes in August 2021, clinical and practical training were given priority and the loss occurred during the previous months were made good. As the

student is required to obtain minimum prescribed attendance to attend the examination, the attendance and internal marks of each student has been uploaded by the college as part of the registration procedure for the examination. In terms of the notification issued by the KUHS, the colleges have uploaded the attendance report and the internal assessment marks to the web portal. A total of 2915 students had registered for the regular examination and 811 students had registered for the supplementary examination. The entire process for the conduct of the examination was completed by the University and hall tickets were also issued to the candidates. Many of the candidates which include the petitioners had registered for the examination. As both the regular and supplementary candidates have a common examination, the postponement of the examinations was out of the question as the students appearing for the supplementary examination cannot have a grievance that they were not properly trained. It is further stated that a large number of students are willing and eager to appear for the examinations conducted by the University and it would not be proper to postpone the examination to their detriment. Going by the assertions in the writ petition, the postponement of the examination is not the remedy. In order to provide the student with

additional training, the course period has to be extended or otherwise, no college would come forward to impart training to the students, for which directions will have to be issued to the College to include the petitioners in additional batches and ensure that the students are satisfied with the clinical training. Though the KUHS had addressed the NMC for clarification, their request was not responded to. According to the respondents, the Post Graduate courses in the Medical stream are held on the basis of a time schedule and in the event of postponement of the MBBS Final Year Examination, many students who would otherwise be eligible to appear for the PG NEET Test will lose a chance if exams are postponed, as requested by the petitioners. Furthermore, the University schedules each examination well in advance as per a time table fixed by them and if any of the exams are adjourned, the entire time table would be disrupted. It is also stated that while disposing of W.P.(C) No.6038/2022, this Court, had issued orders directing the University to permit the petitioners therein to join the junior batch and the University was also directed to issue directions to the Colleges concerned to impart additional training. Those students who are similarly placed as the petitioners herein were permitted to appear for the III Professional MBBS Part II Examinations along with their junior batch in the

exams which are tentatively scheduled to be held on 19.9.2022. It was further ordered that the said exam shall be treated as the regular examination for those students and not as a supplementary examination. It is stated that similar relief can be granted to the petitioners as well.

7. In the course of proceedings, an application for impleadment has been filed by the parents of two students pursuing their Final Year MBBS Course. They have asserted in their affidavit that it would not be in the best interest of the willing students to postpone the examinations as it would impair their chances to appear for the NEET PG 2023. They have also stated that postponement of the course would result in a situation wherein they would be forced to pay additional tuition fee and hostel fee and the course will also get delayed.

8. I have heard Sri.N.N.Sugunapalan, the learned senior counsel as instructed by Sri.S. Sujin, the learned counsel, Sri. P.B.Krishnan, the learned counsel appearing for some of the students, Sri. Biju Sundar, the learned counsel appearing for the petitioners in W.P.(C) No.12045/2022, Sri. P. Sreekumar, the learned standing counsel appearing for the KUHS, Sri P.C. Chacko and Smt. Surya Binoy, the learned Senior Government Pleader.

9. A group of 37 students, similarly placed as the petitioners, had earlier approached this Court and by judgment dated 14.3.2022 in W.P.(C) No.6038/2022, this Court had refused to postpone the examinations scheduled from 31.3.2022 onwards. In the said writ petition, the petitioners had contended that the colleges in which they were pursuing their course had not imparted the necessary amount of training to enable the students to acquire the necessary knowledge and minimum level of skills. Their prayer was to issue directions to the KUHS to postpone the exams scheduled and to conduct the same only after completing the minimum requisite teaching hours prescribed for theory and clinical classes.

10. This Court, while rejecting the request for postponement of exams, had disposed of the writ petition by issuing directions. It would be apposite to extract paragraph Nos.11 to 14 of the judgment.

11. I find considerable merit in the submission of the learned standing counsel that the mere postponement of the exams will not augur to the cause of the petitioners as none of the colleges would impart any additional training as their course period is over. The petitioners will have to remain at home and prepare for the exams and that may not be the proper choice for them.

12. In the statement filed by the respondents, they have

stated that instead of postponement of the exams, a better course would be for the petitioners to join their junior batch and undergo training so that they can appear for the next exam which is scheduled to be held on 19.9.2022. The University has also offered to explore the possibility of treating the exams to be held on 19.9.2022 as their regular exam and not as their supplementary examination. This appears to be a better course as if the exams are postponed based on the contentions raised by the petitioners in this writ petition, it may adversely affect the other students and unsettle the entire process. The respondents are to ensure the availability of house surgeons in the hospitals and they are also to ensure that the present batch completes their intention before the joining time of the junior batches.

13. Being conscious of the law laid down by the Apex Court in **All India Council of Technical Education v. Surinder Kumar Dhawan** [2009 (11) SCC 726] that courts should normally keep their hands off in issues involving academic matters, I am of the view that the prayer sought for by the petitioners seeking postponement of the exams cannot be allowed in the facts and circumstances.

14. However, in view of the stand taken by the KUHS, the following directions are issued:

a) The petitioners herein shall be permitted to join the junior batch and directions shall be given to the colleges concerned to grant additional training.

b) The petitioners shall be permitted to appear for the Third Professional M.B.B.S Part II Examinations along with their junior batch in the exams which are tentatively scheduled to be held on 19.9.2022. The said exam shall be treated as the regular examination and not as a supplementary examination insofar as the petitioners are concerned. It would be open to the University to extend the same benefit to other students who approach the University with similar grievances.

c) Notwithstanding the above directions, after receipt of the attendance report from the colleges which is required to be uploaded on 18.3.2022, the University shall consider the grievances raised by the petitioners/other students sympathetically and issue directions to the concerned colleges to impart training to the students and compensate for the loss of training insofar as theory and clinical classes are concerned, if circumstances so warranted.

d) In respect of those students who have already paid the examination fee but choose to appear for the examinations to be tentatively held on 19.9.2022, the fee already paid shall be adjusted for the next examination.

11. These writ petitions were filed on 28.3.2022 and thereafter. When these writ petitions had come up for admission, this Court, after hearing the submissions of both sides, had passed an interim order on 29.3.2022, the relevant portion reads as under:

3. A statement has been filed by the learned Standing Counsel appearing for the KUHS. It is stated that a total of 2915 students have registered for the regular examinations and 811 students have registered for the supplementary examinations. As the regular and supplementary candidates have a common examination, it would not be possible for the University to postpone the examinations which have already been scheduled. It is stated that it would be a difficult task to conduct another examination for the MBBS students of the 3rd professional Part II before September 2022 for logistic reasons. They have also stated that the University proposes to issue necessary orders in the light of the directions issued by this Court in W.P.(C) No.6038 of 2022 and that such a course would take care of the interest of all the students including those who are ready to appear for the examinations to be held on 31.03.2022.

4. Sri. N.N. Sugunapalan, the learned Senior counsel appearing for the petitioners in these writ petitions as instructed by Sri. S.Sujin, the learned counsel appearing for the petitioners submitted that if the course proposed by the University is followed and the petitioners are permitted to write the regular examinations in the month of September 2022, they are likely to lose one year. It is further submitted by the learned Senior counsel that in the case of Kannur University, the Kerala University of Health Sciences (KUHS), taking note of the fact that the clinical postings have not been completed, had interdicted the University from conducting the

examinations. The learned Senior counsel would submit that the situation can be saved, if the University takes a decision to prepone the examination from September 2022 to an earlier date so that the interest of the students can also be protected. It is also submitted that the Director of Medical Education had addressed all the colleges in the State of Kerala and all the Colleges had concurred to postpone the examinations.

5. Sri. P. Sreekumar, the learned Standing Counsel appearing for the KUHS submitted that the University has considered all the relevant aspects and they have already taken a stand that the examinations can be held only in the month of September/October 2022 and not earlier.

6. The learned Government Pleader also, on instructions, submitted that she has been instructed to submit that the postponement of the examinations as requested by the petitioners cannot be permitted.

7. This Court has already considered the issue in W.P.(C) No. 6038/2022. From the submissions it appears that the petitioners are also not opposed to the steps proposed to be taken by the University which is in consonance with the directions issued by this Court earlier. The only request made by the learned Senior Counsel is to consider as to whether the exams can be postponed to an earlier date.

The learned Standing Counsel appearing for the KUHS seeks an adjournment to reconfirm whether the exams can be

preponed from September/October 2022 to an earlier date,
under any circumstances.

12. As is borne out from the order, from the submissions made before this Court, it was evident that the petitioners were also not opposed to the steps taken by the University in consonance with the directions issued by this Court in W.P.(C) No.6038/2022. Their only request was for preponement of the examinations to a date earlier than September 2022. The writ petition was accordingly posted on 30.3.2022, a day prior to the commencement of the exams.

13. On 30.3.2022, when the matter was taken up, it was submitted before this Court by the learned Standing Counsel appearing for the University that the University shall assess the percentage of students, who would attend the exams on 31.3.2022 and thereafter the Board of Examinations would take a call as to whether there is any need to alter the examination time table that has been tentatively fixed for the academic year.

14. Certain unfortunate events took place after the passing of the

interim order. Some of the students as well as some lawyers posted messages in various social media networks that the exams are likely to be adjourned if the students, en masse boycott the exams. This message was circulated in the social media and most of the students got a wrong indication of the tenor and purport of the order passed by this Court. As a matter of fact, this Court was only exploring the possibilities to ensure that the interests of the students are protected without disrupting the academic calendar.

15. An additional statement has been filed by the learned Standing Counsel for the KUHS on 4.4.2022 to place on record the events that had transpired after the interim order dated 30.3.2022. It is stated that certain persons circulated posts in the social media to the effect that an additional examination would be conducted if the students boycott examinations to be held on 31/03/2022. A screenshot of the post is produced as Ext.R1D. Out of 3687 registered candidates, 1516 candidates appeared for the examination and 2171 candidates remained absent. In order to prevent the spread of misinformation, the University convened an urgent meeting of the Principals of the Medical Colleges on 31/03/2022. The Principals have informed the University that classes were provided to the students and the

assertions to the contrary are not correct. It was the unanimous opinion of the Heads of institutions that it would not be possible for advancing the scheduled examination as the training of additional batches have been arranged in such a way that they could be presented for the examination in the month of September. Ext.R1E is the minutes of the meeting which has been placed on record.

16. As stated earlier, being conscious of the earlier directions issued by this Court in W.P. (C) No. 6038 of 2022, the counsel appearing for the petitioners did not insist that the exams be postponed. They have more or less accepted the fact that hundreds of students are eager and willing to appear for the examination. Their only complaint is that the University is taking an inflexible stand without considering the plight of the students.

17. Sri.N.N.Sugunapalan, the learned Senior Counsel and Sri.P.B.Krishnan, the learned counsel, took pains to explain that the conduct of the exams in the month of September 2022 would be detrimental to the interests of the students as it would prevent them from appearing for the NEET PG exams. However, I find from the writ petition that it is the specific case of the petitioners that the shortage of training is to the extent of 16

weeks. If the course period is extended as suggested by the petitioners, it would take time until August end for completing the training. If that be the case, the exams can be held only in the month of September, 2022 as scheduled.

18. However, I note that a large number of students have, for one reason or the other, failed to attend the exams. While disposing of the earlier writ petition, this Court, considering the interest of the students, had ordered the respondents to extend the same benefit to other similarly placed students who approach the University with the same grievance. That may be one of the reasons why they chose to skip the exams so that they can appear for the September 2022 exams as their regular first chance. They also may have been persuaded by their fellow students or advisors to boycott the exams under the belief that the University would change their stand and conduct the exams earlier. Be that as it may, I am of the considered opinion that postponement of the exams as prayed for by the petitioners cannot be granted. That was the view taken by this Court earlier and there is no reason to take a different view now. However, that does not mean that the University shall not consider the cause of the students sympathetically as the University is duty bound to protect the interest and

welfare of the students. Notwithstanding the rejection of the prayer for adjournment of the exams, the University shall reconsider their grievances sympathetically after getting fresh inputs from the Principals of the Colleges concerned. I record the submission of the learned Standing Counsel that the University shall place the matter before the Board of Examinations which shall meet within a month and a decision shall be taken as regards the conduct of the exams for the students who did not attend the exams, whatever be the reason. The Board of Examinations shall take a decision on the grievances of the students with regard to preponement of the regular exams scheduled to be held during September, 2022 within a month from today after evaluating the entire aspects.

19. Before parting, I take note of the submissions of Sri P.C. Chacko, that efforts are being made by a group of students to spread false information and to threaten the students who are willing to appear for the exams. No such attempts can be tolerated. This Court at no point of time had given an indication that the Examinations scheduled would be interdicted or postponed. The examinations as scheduled shall go on and the University as well as the Colleges shall ensure that all the willing students are able to appear for the examinations without fear.

In view of the discussion above, I am of the considered opinion that the petitioners have not made any case for quashing Ext.P1 notification or for rescheduling the dates of the III Professional MBBS Degree Part II Examinations. The students who failed to appear for the III Professional MBBS Degree Part II Examinations shall be permitted to appear for the Examinations along with their junior batch in the exams which are tentatively scheduled to be held on 19.9.2022, or such other date as modified by the Board of Examinations pursuant to the exercise as ordered by this Court. Necessary directions shall be issued to the Colleges to permit the petitioners to join the junior batch or to constitute additional batches so that the petitioners may obtain training as sought for by them. The University shall take immediate steps to convene the Board of Examinations/appropriate body of the University, which body shall consider the grievance of the students and also their request for preponing the exams from 19.9.2022 as tentatively fixed to an earlier date. While considering the request, the Board of Examinations shall take necessary inputs from the Head of institutions of various Colleges and such other persons that they deem fit and proper. The Board of Examinations/appropriate body of University shall take a decision as directed

above within a period of one month from the date of receipt of a copy of this judgment.

These writ petitions are disposed of.
