Advisory

Sub: Relaxation for Postgraduate Degree Poster Presentation

The National Medical Commission has received several request of Post Graduate students of 2019-20 batch requesting for relaxation in poster presentation, to read one paper at National/State Conference and to present one research paper.

2. Sub-clause 13.9 of the Postgraduate Medical Education Regulations states as follows: "A postgraduate student of a Postgraduate degree course in broad specialities/super specialities would be required to present one poster presentation, to read one paper at a national/state conference and to present one research paper which should be published/accepted for publication/sent for publication during the period of his Postgraduate studies so as to make him eligible to appear at the Postgraduate degree examination." In view of the COVID 19 pandemic, the Postgraduate Medical Education Board in its Meeting dated 25/10/2021 has decided to relax the said portion of the regulation and allow the postgraduate students of batch 2019-20 only, in broad specialities/super specialities to be eligible to appear for their Postgraduate degree examinations even if they have not made a poster presentation, read a paper at a conference or submitted a research paper for publication.
