Advisory for all Medical Colleges

Advisory regarding Final Year Postgraduate (Broad and Super Specialty) students in view of the declining number of COVID 19 cases in the country:

The COVID 19 caused disruption in all walks of life in the country for the last one and a half year. Expectedly the Medical students had to endure the major brunt of this. The NEET Examination was postponed, delaying the arrival of fresh batch of Postgraduate students. Many Universities could not hold the examination for the Final year Postgraduate students. Hence the NMC had to issue regular and pertinent advisories regarding the matters concerning the examinations and students to tide over the crisis. Fortunately the COVID has started showing the retreating trend. In this background the following fresh advisories are issued.

1. The Universities / Institutions are advised to hold the examination for final year Postgraduate Broad Specialty and Super Specialty students at the earliest convenient time depending upon the local COVID situation.
2. The earlier advisories regarding relaxation in the examination norms shall be in force for these examinations also.
3. The Universities may, as per their discretion, adopt internal valuation of theory answer scripts by the Institutions themselves.
