Post – Graduate Program/ Courses Conducted by University

Introduction:

1.1 Master of Science in Pharmaceutical Medicine:

The discipline of Pharmaceutical Medicine concerns the medical and healthcare aspects of research, development, evaluation, registration, monitoring, and marketing of medicines and healthcare-related products. As is well-known, pharmaceutical products including health products play a major role in health care, promoting health, relieving symptoms, providing cure and palliation.

The Master of Science (Pharmaceutical Medicine) Program at the Maharashtra University of Health Sciences (MUHS) provides an outstanding opportunity for graduates in the Health Sciences including Alternative systems of Medicine, Ayurveda, Unani, Homeopathy, Pharmacy, and Basic Sciences to pursue a very interesting and challenging career in contributing to the development of products ranging from biologicals, herbals, nutraceuticals, devices to health promotion.

The MUHS started the Master of Science (Pharmaceutical Medicine) Program in 2007, with a curriculum revision in 2012. Since inception-, students have completed the course and these alumni have made a mark and are pursuing successful careers in academia as well as industry in India and abroad. As our world evolves and progresses, it is important for us to keep up with the changes in healthcare, regulations, and education policy. By revising our course curriculum, we can better prepare ourselves for the skills and job readiness needed to succeed in our chosen fields. It is time to identify the gaps and work towards bridging them for a brighter future.

PROGRAM SCOPE:

The Program is designed considering the varied backgrounds ranging from health sciences, and pharmacy to basic life sciences, of students. The Program will provide an environment that will motivate, enlighten, and train students to pursue various challenging careers as professionals in clinical research, drug regulations, Pharmacovigilance, medical writing, entrepreneurship in drug development, and many more.

OVERALL GOAL:

The Master of Science in Pharmaceutical Medicine at MUHS aims to prepare competent, smart, skillful, motivated, and creative professionals with deep knowledge of pharmaceutical medicine with the required competencies and skills. The graduating professionals will be job-ready for working in research institutes (government and non-government) and industrial companies that develop, produce, investigate, and supply pharmaceutical products. They will also be able to pursue academic careers in pharmaceutical medicine and further studies in doctoral Program.

1.2 MBA (Health Care Administration) :

Healthcare is one of the fastest growing fields and is the third largest service sector in India. The industry is emerging as one of the promising sectors in the economy. Existing healthcare organizations are expanding by opening hospitals in new service areas and new organizations are entering with the latest Technology and Marketing Strategies. Besides, India is also eyeing the global Healthcare market to emerge as one of the possible destinations for international patients. This course is a professional course, approved by the Govt. of Maharashtra and ALL INDIA COUNCIL OF TECHNICAL EDUCATION (AICTE), New Delhi.

Healthcare administration plays a vital role in the healthcare system by overseeing the management and operation of healthcare facilities, including hospitals and clinics. Administrators are responsible for planning, organizing, and coordinating healthcare services, managing finances and resources, ensuring compliance with regulations, and fostering collaboration among healthcare professionals. Their role is essential for optimizing resources, maintaining quality patient care, and promoting the overall health and well-being of individuals and communities within the healthcare system.

1.3 Master of Public Health:

MPH is an intensive two-year course designed to provide an excellent grounding in Public Health to strengthen each learner's knowledge and skills contributing to the development of a cadre of public health professionals. It has been designed with an inherent recognition that individuals admitted to this Program have prior and current experience in the health sector. The Program is divided into classroom-based course work and field-based practical experience in Public Health. The exit competency of the Program allows the individuals to demonstrate their proficiency and mastery of the Program competencies in the real-world application in the form of a facility and community based project. The project assignment is to be undertaken as a core part of the course curriculum. This course is a professional course, approved by the **Government of Maharashtra**. The course provides systematic coverage of major topics in the area of Public Health based on international standards. It is appropriate for those who want to pursue a career in the area of Public Health. The course is designed based on latest international evidence and standards in Public Health. The course curriculum is designed with technical support from government organizations and experts in Public Health belonging to academic and medical education.
